### **DETAILED ACTION**

Claims 1-28 are pending in the application.

#### ***Priority***

1. Any non-provisional application claiming the benefit of one or more prior filed copending nonprovisional applications or international applications designating the United States of America must contain or be amended to contain in the first sentence of the specification following the title a reference to each such prior application, identifying it by application number (consisting of the series code and serial number) or international application number and international filing date and indicating the relationship of the applications. Cross-references to other related application(s) may be made when appropriate.

"This application is a national stage entry under 35 U.S.C. § 371 of PCT/SI03/00024, filed July 14, 2003." is suggested.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claims 4, 11 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reason(s) apply:

a) Claim 4 is vague and indefinite in that it is not known what is meant by olazapine.

- b) Claim 11 is vague and indefinite in that it is not known what is meant by olanzpine.
- c) Claim 15 is vague and indefinite in that it is not known what is meant by olazapine.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-5, 10, 11 and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by BUNNELL et al., U.S. Patent No. 5,703,232. Bunnell teaches the compounds and process of preparing the compounds of the instant invention where olanzapine is mixed with 2-propanol.

4. Claim 23 is rejected under 35 U.S.C. 102(b) as being anticipated by CHAKRABARTI et al., U.S. Patent No. 5,229,382. CHAKRABARTI teaches the compositions of 2-methyl-4-(4-methyl-1-piperazinyl)-10H-thieno[2,3-b][1,5]benzodiazepine, i.e. olanzapine as set forth in claim 2.

***Allowable Subject Matter***

5. Claims 6-9, 12-14, 16-22, 24 and 26-28 are allowed. None of the prior art of record or a search in the pertinent art area teaches the compounds and process of preparing the compounds as claimed herein.
